way. 5 lbs. 90 cts.; 10 lbs. \$1.50.

Tulips, Daffodils, Hyacinths, and all other bulbs require an abundance of plant food. This fertilizer contains nitrogen, phosphoric acid, and potash. It's good to feed the bulbs not only at the time of planting but also right after they flower, at which time the bulbs start to store food away for next year's flowers. Be sure to remove the dead flowers so as not to allow the plant to go to seed. Do not remove the foliage until it dies down at least two thirds of the
